Minivan · XLE

WHEELCHAIR CONVERSION

BraunAbility pre-owned power in-floor side-entry ramp. The ramp stows completely beneath the floor so the doorway stays clear and nothing blocks the view or the cabin. One press on the key fob, dash switch, or door control lowers the van, opens the power sliding door, and extends the ramp.

Q'Lock docking system, currently in the front passenger position. Our technicians can move it to the driver's position, shift it mid-cabin, or remove it before delivery.
